**2026**

Nesa Aydınlatma, 1997 yılında elektrik sektörünün aydınlatma ürünleri alanında hizmet vermek için kuruldu. Hemen ardından OSAKA LIGHT markasını oluşturarak, kendi mühendislik tasarımlarını Uzakdoğu'da saygın fabrikalarda ürettirdi. O yıllarda popüler olan halojen ampullerde başlayan ithalat ve satış hizmetleri, son olarak da günümüzün en yeni teknolojisi olan LED ürünleri ile müşterilerine en iyi hizmeti sunmaya başladı. Yıllar içerisinde satış ve sonrası destek hizmetleriyle tüm Türkiye genelinde 2000'e ulaşan bir müşteri portföyü oluşturdu.

İthalatçı bir firma olmanın avantajını kullanarak, dünyadaki tüm gelişmeleri yakından takip etme fırsatı buldu. 1000'i aşkın ürün gamı içerisindeki birçok ürünü Türkiye ile ilk kez tanıştırdı.

Nesa Lighting was established in 1997 to provide services in the lighting products sector of the electrical industry. Shortly after, the company created the OSAKA LIGHT brand and began manufacturing its own engineering designs in reputable factories in the Far East. Initially, the company started its operations by importing and selling halogen bulbs, and over time, it adapted to industry developments, eventually offering the latest technology in LED products to its customers. Over the years, with its sales and after-sales services, the company has built a customer portfolio of over 2,000 clients across Turkey.

Taking advantage of being an importer,

Nesa Lighting had the opportunity to closely follow technological advancements worldwide. With a product range of over 1,000 items, the company introduced many products to Turkey for the first time, further solidifying its leadership position in the industry.
